

## Auditory Neuropathy Genetic Testing

A genetic diagnosis can empower families and individuals to make informed choices, foster connection with others in the community, and may provide valuable insights into medical management.

Eligibility: Individuals of any age with **confirmed or suspected auditory neuropathy** living in the U.S.

Participating in this program is **at no cost** to the participant, participant's insurance, or healthcare provider

Optional **genetic counseling** is available through this program at no cost\*

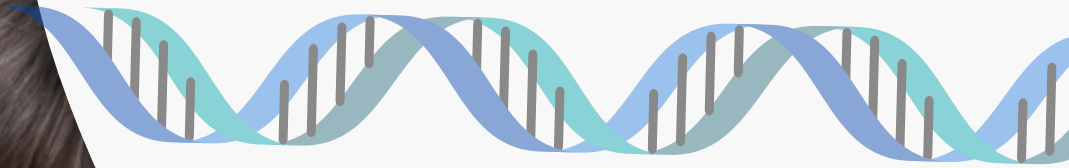

Your **privacy** is important. No individual identifiable patient information will be shared with Akouos

# How the Resonate™ Program works

## STEP 1

Your doctor must order the genetic test

## STEP 2

Genetic test kit is sent to your home

## STEP 3

Saliva sample and signed consent form are mailed back

## STEP 4

Results are sent to your physician in typically 4 weeks and then shared with you

## STEP 5

Optional genetic counseling via telehealth at no cost\*

Ask your doctor if genetic testing with the Resonate Program is right for you.
